

School Accountability Report Card

Reported Using Data from the 2019–2020 School Year

California Department of Education

Address: 4027 Normal Street
San Diego, CA 92103

Phone: 619-296-2135

Principal: Florida May Padilla

Grade Span: K-12

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF webpage at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

School Description and Mission Statement (School Year 2020–2021)

Aseltine School is a California Department of Education certified non-public school (NPS) who has been committed to serving students within San Diego County for more than 50 years. The school embraces a philosophy of uncommon commitment to special education students and their families. We believe that students can become aware of, learn to cope with, and eventually overcome the circumstances or barriers that have limited their progress.

Aseltine School strongly supports the idea of cultural pluralism and celebrates the diversity of cultures and communities that make up the San Diego region. We are grounded in a fundamental respect for the uniqueness of each student and the circumstance that he or she brings to our setting. We believe that while learning is a serious manner, it can also be fun and relevant to the students' interests. We are committed to engaging students as thinkers, problem-solvers, and partners in the educational process.

Aseltine's mission is to educate and empower students to become critical thinkers of the world. All our efforts are used to nurture, challenge and engage K-12 students who do not learn like other children, empowering them to transform into passionate learners, critical thinkers and creative problem-solvers that thrive on challenge in school and the community.

The school offers a full array of special educational services for students from grades K-12. Services are assigned per student's IEP and additional services beyond the IEP are provided on an as-needed basis. These extensive services are provided by credentialed and highly qualified staff. Services provided at Aseltine School include: Specialized Academic Instruction, Behavior Intervention Planning/Implementation, Counseling and Guidance, Language/Speech Development and Remediation, Occupational Therapy, and Vocational Education and Career Development.

School Facility Conditions and Planned Improvements

At Aseltine School, safety is a priority. The school has developed a comprehensive plan which ensures compliance with California Department of Education (CDE) regulations. The school safety plan has been established and is updated annually for the county as required by California Education Code Section 35294. In addition to meeting requirements, safety checks are conducted on a weekly basis by the Operations Coordinator to ensure that the school's grounds are secure and maintained. Monthly fire drills and quarterly disaster drills are conducted and follow the best practices of the local school district. The Operations Coordinator conducts monthly assessments and adapts the School Safety Plan to meet the changing needs of the campus.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Note: The 2019–2020 data are not available. Due to the COVID-19 pandemic, Executive Order N-30-20 was issued which waived the requirement for statewide testing for the 2019–2020 school year.

Note: (--) Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Career Technical Education Programs (School Year 2019–2020)

Aseltine School provides students with courses necessary for a high-school diploma as determined by the requirements of their district of residence. In the 2019-2020 school year, less than 10 students in grades 9 through 12 were enrolled in courses leading to a high school diploma. In addition to earning a high school diploma, Aseltine School also focuses on preparing students to return to a less restrictive environment. By the end of the 2019-2020 school year (July 1, 2019 to June 30, 2020), nearly 20% of students who regularly attended successfully transitioned back to public school; and nearly 10% students were dual-enrolled with Aseltine School and a public school within their school district.

Aseltine School provides vocational training and transitional services for students. Throughout the year there are several opportunities provided for students to get them ready for life after school. Incorporated within the instructional program, students are enrolled in electives and are engaged in activities that teach them how to obtain and retain gainful employment. These activities foster students' development in autonomy and responsibility. In addition to these instructional opportunities, Aseltine School has established a Culinary Arts Program and provides community-based instruction as required by their Individualized Transition Plan.

Aseltine School's Culinary Arts Program provides students with the skills they need to find employment in the community as well as basic skills such as healthy meal planning, food preparation, and financial budgeting – skills needed to lead independent, self-sufficient lives. As a result of the culinary arts program, students develop basic cooking and inventory skills and learn health and safety standards for proper food preparation and storage. Students practice math skills as well as vital problem-solving skills and learn important tools to help them compete in the job market: marketing, customer service, dependability, and basic accounting – all while they develop a work-ethic and gain real-life work experience. Students begin seeing the connection between school and work and begin to build confidence, resulting in improved academics and attendance.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2020–2021)

Aseltine School is committed to communicating with and engaging parents/guardians as partners in their children's education. Opportunities for involvement in the school are numerous, including any or all of the following: parent conferences/meetings, IEP process, participation in seasonal and special events, community outreach, home visits, telephone contact, website, and weekly progress reports which are sent via student or e-mail.

Through Distance Learning and Hybrid Learning Model, parents also have increased daily access to Aseltine staff via GoogleMeet, emails, and texts as needed. This partnership between school and home have been essential in ensuring academic and behavioral progress. Most important, these daily connections ensure and promote social/emotional wellness during the pandemic.

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates; and
- High school graduation rates

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

(data collected between July through June, each full school year respectively)

Expulsions	0	0	.1%	.1%	.1%	.1%

Note: Number reported for school is an actual number not a percentage as reported by district and state.

Suspensions and Expulsions for School Year 2019–2020 Only

(data collected between July through February, partial school year due to the COVID-19 pandemic)

Rate	School 2019–2020	District 2019–2020	State 2019–2020
Suspensions	17	0	0
Expulsions	0	0	0

Note: Number reported for school is an actual number not a percentage as reported by district and state.

Note: The 2019–2020 suspensions and expulsions rate data are not comparable to prior year data because the 2019–2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019–2020 school year compared to prior years.

School Safety Plan (School Year 2020–2021)

At Aseltine School, safety is a priority. The school has developed a comprehensive plan which ensures compliance with California Department of Education (CDE) regulations. The school safety plan has been established and is updated annually for the county as required by California Education Code Section 35294. The School Safety Plan also includes a Suicide Prevention Plan and a revised Active Shooter Plan. More recently, as of August 2021, includes compliance to SB-1172. Staff have participated in these related trainings on an annual basis and/or within 30 days of employment. In addition to meeting requirements, safety checks are conducted on a weekly basis by the Operations Coordinator to ensure that the school's grounds are secure and maintained. Monthly fire drills and quarterly disaster drills are conducted and follow the best practices of the local school district. The Operations Coordinator conducts monthly assessments and adapts the School Safety Plan to meet the changing needs of the campus.

School Safety Behavior Program (School Year 2020–2021)

At Aseltine, staff and students work together as equal partners – staff do not try to manipulate students into acting in a certain way; we teach students to learn to make effective and thoughtful decisions for themselves. Staff help students realize they have control over their lives – and the ability to determine their futures and make better choices for themselves. Although we recognize and respect students’ frustrations with and criticisms of their past schooling, we do not accept this as an excuse for their behavior. We encourage students to carefully examine their actions and then thoughtfully decide what actions they must take to realize their goals – a necessary step before they can make any academic progress.

Every aspect of the Aseltine Program is grounded in reinforcing and strengthening students’ conflict resolution skills. For students experiencing difficulty working in their regular classrooms and who cannot reach an agreement with staff on how to approach their difficulties, the Conflict Resolution Program offers intensive opportunities for students to explore their problematic behavior – and reach an effective resolution for themselves and the entire Aseltine community. The Conflict Resolution Program challenges students to identify, understand, and overcome the conflicts they have with people, with circumstances, and within themselves. During this intensive process, staff challenge students to consider their behavior – and its consequences – from five points of view:

- 1) **Pragmatic (practical)**: What are the practical problems the student’s behavior has for the classroom and for him/her?
- 2) **Political (community)**: What direction will the student’s future take if he/she continues this problematic behavior?
- 3) **Personal-ethical (right action)**: Would the student allow others to act similarly toward him/her?
- 4) **Self-paradigmatic (identity/worldview)**: Is the student a victim with no control over their actions or life – as his/her behavior implies – or a capable, responsible young person?
- 5) **Expressed intentionality (students’ goal)**: Will this behavior help the student achieve his/her goal – as stated in the student’s IEP or in personal conversations with staff – or make it more difficult to achieve?

By engaging the students as thinkers, problem-solvers, and partners in their learning process, Aseltine students master the tools necessary to develop themselves into self-aware, confident, responsible young people prepared for life. We believe all students have it within themselves to respond to life’s most difficult challenges in a thoughtful, self-disciplined, and responsible manner.

The goal of the Conflict Resolution Program – and the entire Aseltine program – is to teach students to become thinkers, not reactors; to evaluate situations; to identify their options; to decide which option is best to try in a given situation, and then to learn to apply a similar evaluation process in everyday situations, including life outside Aseltine School. Through this process, students develop self-awareness, personal and social coping skills, communication skills, problem-solving skills, and a sense of empowerment. When students learn to effectively handle the challenges that have prevented their success in school, their grades and attendance improve as they begin to take responsibility for and control over their own lives – often for the first time.
